MICHELLE MAI

New York, NY | michelle.mai.3202@gmail.com | LinkedIn | github.com/michellemai122

EDUCATION

COLUMBIA UNIVERSITY New York, NY
Bachelor of Science in Electrical Engineering, Minor in Computer Science *Expected May 2027*
Relevant Coursework: CS Design & Innovation Lab, Data Structures in Java, Discrete Mathematics, Probability for Engineers, Principles of Economics, Data-Driven Analysis & Computation (graduate)

SKILLS

Product: Agile, design thinking, UI/UX, user research, roadmap prioritization, Figma
AI/GenAI: LLM agents, evaluation frameworks, prompt optimization (DSPy), RAG, embeddings, vector search (FAISS)
Technical: Python, Java, JavaScript, TypeScript, React, SQL, HTML/CSS, Git, Azure, Claude Code, Codex, Excel

PROFESSIONAL EXPERIENCE

CHARACTERQUILT | *Software Development Intern* | New York, NY *Jul - Sep 2026*
- Implemented design feedback into shipped features in a production React/TypeScript app across 7 merged PRs, including live previews of AI-generated assets, a reorganized task workspace, and a voice-review flow
- Redesigned the AI agent chat panel under a "delete more than you add" principle: separate chat histories, a newest-first chat switcher, one-line run summaries, and a reasoning log without repeated lines
- Tested every change in real task workspaces and reported bugs with recordings and annotated screenshots; 185 focused and integration tests passed locally before the workspace redesign merged
- Built the data architecture for an autonomous support workflow that stores customer and product context, allowing the AI assistant to answer product questions when team members are offline

HIGHROADS AI | *AI Engineering Intern* | New York, NY *Jun - Jul 2026*
- Built autonomous LLM agents to automate the end-to-end CLO deal workflow, extracting structured deal data from unstructured documents and eliminating hours of manual review per deal
- Designed evaluation loops to benchmark agent accuracy against ground-truth deal data, iterating on DSPy-optimized prompts to systematically raise output quality

COLUMBIA UNIVERSITY | *Teaching Assistant, CS Design & Innovation Lab* | New York, NY *Jan - May 2026*
- Directed 5-8 cross-functional student teams through the full product lifecycle using agile and design thinking
- Coached teams on product strategy, technical implementation, and narrative framing to improve usability

PDI TECHNOLOGIES | *Software Developer Intern* | Houston, TX *Jun - Jul 2025*
- Led development of an AI-powered root cause analysis product across 4 cross-functional engineering teams, defining requirements and roadmap; cut investigation time by 95% and drove $2.88M in annual operational value
- Architected and deployed a scalable RAG-based semantic search system (Python, Azure Functions, OpenAI embeddings, FAISS) across internal datasets for a 20+ person operations team

ERA (Entrepreneurs Roundtable Accelerator) | *Product Manager Intern* | New York, NY *Jan - May 2025*
- Advised 3 early-stage startups (ClaiAI, Roz, Overwatch Health) on product strategy, UX, and growth, shaping product direction and go-to-market decisions
- Synthesized user research and data insights into customer personas, driving improvements in acquisition, retention, and revenue forecasting

PROJECTS

CONSUMER SIGNAL | *B2C Startup Database* | consumersignal.onrender.com | Python, Reddit API
- Built an end-to-end data pipeline that ingests and scores social-signal data into a "Momentum Score," surfacing up-and-coming consumer startups before they reach mainstream trackers

GABLE | *AI Sublet Search, Columbia Startup Studio* | gable.fit | Next.js, Tailwind, Supabase, Vercel
- Co-building a chat-based search that finds verified sublets near Columbia with a 3-person team; shipped the homepage, 3 landing pages and a Supabase waitlist signup on the live site
- Owned demand strategy, defining target users and writing the first Reddit outreach posts to test messaging

LEADERSHIP

ALPFA (Association of Latino Professionals For America) | *Co-President*
SHPE (Society of Hispanic Professional Engineers) | *Professional Development Committee*
